ABSTRACT OF THE DISCLOSURE

IMPOSITION PROCESS AND APPARATUS FOR
VARIABLE IMAGING SYSTEM

5 The present invention is useful for assembling a
book. The inventive method includes the steps of
specifying pagination information including an indication
of whether a page is to be selectively included in the
book, determining whether the page is to be assembled
into the book based on the pagination information, and
10 generating page description language instructions for
production of the book in accordance with the pagination
information.
